FREIGHT CONDUCTOR

INJURED AT PLAINFIELD.

James Clark of New London Knocked
Down by Another Train.

James Clark of 41 Winthrop street,
New London, a conductor in the
freight service of the New Haven rail-
road, was painfully bruised Tuesday
morning when he was knocked down
by a freight train and under the cars,
although the wheels of the train did
not pass over the victim. Clark was
taken to New Britain and admitted to
Memorial hospital, at the institution
it was said that Clark's injuries con-
sisted of severe contusions. It was at
first believed that he was injured in-
ternally.

Clark left Midway in charge of a
local freight train bound for Worcester.
At Plainfield cars were to be
dropped from the train, and while the
switching was in progress Clark stood
in the middle of a track parallel with
that on which his train was working.
As he did so a Providence division local
freight train also doing switching duty
backed down upon Clark, and the con-
ductor was felled, but luckily his body
landed between the rails and not across
them.

The brake rigging of the car caused
Clark to be dragged a considerable dis-
tance before a stop could be made.
When extricated from beneath the
car Clark was suffering great pain
from the bruised condition of the body
and legs.

How Do You
"Stand"
Cold Weather?

Are you one of the many people
who dread the coming winter?
If you are you should at once look
to the condition of your blood. If you
have plenty of rich blood in your body
cold weather will not "scare" you a
little bit. When the blood is poor
and scanty then you are certain to
"feel the cold" and feel it badly.

The way to stand in the safe side,
the warm side of this proposition, is
to begin at once a pre-winter treat-
ment with

Smith's Emulsion
of
Cod Liver Oil.

It builds, warms and strengthens you,
also protects you against coughs and
lung troubles.

President Taft's Thanksgiving Turkey

Thirty-five Pounder Goes from Horace Voss to the White
House at Washington—Fine Specimen of the Holiday
Bird.

Through the courtesy of Horace Voss
of Westerly, R. I., The Bulletin is en-
abled to present a picture of the tur-
key which will grace the White house
table on Thanksgiving day. It
weighed 35 pounds and was the choic-
est of ten select birds set aside for
this purpose. This bird not only has
fine feathers, but is a just quality
Mr. Voss has few peers and no
superior in the country. He be-
gan sending the Thanksgiving and
Christmas turkeys to the White house
in 1897, and has since that time
when General Grant was elected to the
presidency and kept it up till the
time of Roosevelt, when the Christmas bird

was discontinued, and the November
turkey only has been sent. Mr.
Voss's turkey is not the only bird sent,
for they come to the White house
from the east, south and west, but
the National Magazine, in an article
upon the White House turkeys, said

the preferred turkey was the Rhode
Island turkey because of its
size and quality. Mr. Voss has given
the Rhode Island turkey national fame
as well as won it for himself. He
knows who raises the greatest flocks
of turkeys in the turkey belt, and
where to look for the finest turkeys
grown in America.

NO LICENSES FOR SALOONS

UNLESS LAWS ARE OBEYED.

Several Here and in New London
Which Have Received Instructions
Regarding Doors and Screens.

With the exception of Colchester, the
saloons of the county have been in-
spected by the county commissioners,
who will look over the two there as
soon as possible. There are but four
towns in this county which have li-
censes now, the other 17 being dry.
In Norwich, New London, Sprague and
Colchester licenses are granted.
Norwich saloons, for the most part,
have complied with the law regarding
doors and screens. There are a few
places which are not complying with
the law and they have been notified
that they must do so and until they
do so no license will be granted them.
In New London there are several saloons
not living up to the require-
ments, and the conditions there must
change. The conclusion of the in-
spection there was on Tuesday and at
the session of the board they granted
the following licenses:
